

MEATLINE 07 O

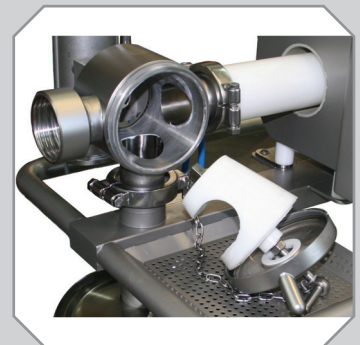

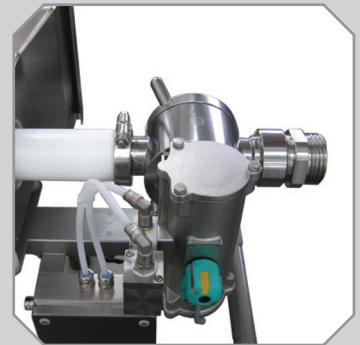

Metal separator for connection to a vacuum filler in sausage production

- **Reliable** - in Process and Detection
- **Fast** - in Reaction and Cleaning
- **Conforming** - in Design and Data management

In a few words:

- Digital signal processing for best detection
- Reliable and safe metal detection technology
- Process- and condition monitoring
- Resistant against most cleaning procedures
- Fast ejector for minimized material loss
- Dismantle without tools
- Network connectivity and data management
- Password protected user management
- Hygienic Design without dead spots
