

# P-TRON GM V2

Metal separator for installation in continuous vacuum conveying

- **Reliable** - in Process and Detection
- **Durable** - in Technology and Performance
- **Conforming** - in Design and Data management

In a few words:

- PowerLine concept for absolute noise immunity
- Totally shielded against external noise
- Process- and condition monitoring
- Failsafe storage of all system parameters
- No sensing tube, no static discharges
- Sensor head fully sealed
- Network connectivity and data management
- Password protected user management
- Version (P) for powder conveying
